PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in building responsive and interactive web applications using HTML5, CSS3, JavaScript (ES6+), and React.js. Strong understanding of modern frontend development, REST API integration, and responsive UI design. Completed a Python Full Stack Development course, strengthening overall web development knowledge, and eager to contribute technical skills while continuously learning and growing in a Frontend Developer role.

TECHNICAL SKILLS

- **Core Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Libraries & Frameworks:** React.js, React Hooks, React Router, Context API
- **Concepts & Architecture:** Component Lifecycle, Props, Responsive Web Design, UI/UX Principles
- **API & Backend Integration:** Fetch API, REST API Integration, Async/Await, JSON Data Handling
- **Tools & Platforms:** Git, GitHub, Visual Studio Code (VS Code), npm, Vite, Vercel

PROJECTS

Weather App

GitHub — Live Demo

- Engineered an interactive, single-page Weather Application leveraging React.js, OpenWeather API, and Fetch API to deliver real-time meteorological metrics globally.
- Implemented dynamic location search functionality displaying real-time temperature, humidity, wind velocity, atmospheric pressure, and real-feel indexes.
- Utilized modular React Hooks (`useState`, `useEffect`) for state management, incorporating try-catch error boundary handling to manage API rate limits gracefully.

Currency Converter App

GitHub — Live Demo

- Developed a real-time Currency Conversion application utilizing vanilla JavaScript (ES6+), HTML5, and custom CSS3 flexbox layouts.
- Integrated live currency exchange rate REST APIs to calculate accurate multi-currency valuations across dozens of international currencies.
- Applied robust DOM manipulation strategies, input validation, and asynchronous `async/await` network requests to deliver a highly reactive user interface.

Coffee Website

GitHub — Live Demo

- Designed and deployed a modern e-commerce web platform for a coffee brand adhering to mobile-first responsive design principles.
- Authored custom CSS3 keyframe animations, smooth scrolling behaviors, and dynamic layouts ensuring full cross-browser compatibility across desktop, tablet, and mobile browsers.
- Focused on web performance optimization, clean code structure, and web accessibility standards.

EDUCATION

Python Full Stack Developer Certification **Graduation Year: 2026**
Code99 IT Academy, Velachery

Bachelor of Science (B.Sc.) in Zoology **Graduation Year: 2023**
Sethupathy Government Arts College, Ramanathapuram

SOFT SKILLS

Analytical Problem Solving & Adaptability — Effective Communication Skills — Teamwork & Collaboration — Time Management — Quick & Smart Learner

LANGUAGES

Tamil: Native / Fluent — **English:** Professional Working Proficiency
